

Be Kind to Animals: Wild Animal Safety

We share our environment with many wild animals. We should always respect their habitat and leave them to care for themselves as wild animals do.

Wild vs Domestic Animal

- Wild: An animal that lives on its own and does not require human care.
- Domestic: Animal that relies on people for their care.

Did you know?

- It is best to leave wild pets in the wild. Taking them out of the wild endangers them and may also endanger your safety.
- It is illegal to own a wild pet

Look

- If you see a wild animal, watch from a distance, do not approach
- If the animal is agitated by your presence, walk away slowly

Learn

- Respect wild animals and leave them in their habitat
- Encourage your child to learn about wild animals through a hands off approach

Help

- If you find an injured wild animal - DO NOT TOUCH - contact your local Police, Fish & Game or a Wildlife Rehabilitator
